The Cummer Museum of Art & Gardens partnered with Jacksonville Arts & Music School during the 2021-2022 school year. JAMS' visual art students of House Savage wrote, illustrated, and designed a StoryWalk set in the Museum Gardens.

This epic tale follows Mira, Kai, Kam, and Bash, four teenagers from different worlds who find themselves on a quest to locate a magical book. This interactive experience leads visitors through the Museum's gardens using an educational visual guide that features bold student designed imagery.
